## KEEPING SURFACES DISINFECTED. KEEPING GUESTS & EMPLOYEES SAFE.

Our products are known for being the best in the world. Durable, efficient and easy to use, they are exactly what you need to protect your guests and employees and help keep your business safe. Backed by decades of expertise and proven dependability, B&G and Curtis Dyna-Fog foggers are the perfect choice to help you disinfect any surface or space.

Use the guide below for help selecting the appropriate fogger for your application. And, for more information about disinfecting the right way, go to:

[bgequip.com/disinfection](http://bgequip.com/disinfection)

HOSPITALITY LOCATION	EQUIPMENT TYPE	PRODUCT
Bedrooms, tables, hallways, kitchens, gyms, bathrooms, living rooms, conference rooms and high-traffic areas	Hand-carry ULV Fogger, 1, 1.5 gal tank	Hurricane ES Hurricane Ultra II Flex-A-Lite 2600
Target surfaces in bedrooms, bathrooms, kitchens, gyms, carpets and walls	Hand-carry Sprayer, 1 gal tank, 16 oz tank	Primeline SpotSprayR

### HURRICANE ES

This premier hand-carry ULV fogger uses electrostatic technology to charge each droplet, providing uniform coverage on the target surface every time. Quickly and efficiently treat guest and conference rooms, hallways and other high-traffic areas with critical, high-touch surfaces such as handrails and doorknobs. Disinfect an average-sized hotel room in under one minute.

### PRIMELINE

Durable and reliable, the B&G Primeline is ideal for disinfecting walls, doors, floors, steps and carpets. Its chemical-resistant extension hose enables spray to be delivered to target surfaces with a high precision, saving on costs. The 1-gallon stainless steel tank provides capacity to efficiently treat several guest rooms.

### HURRICANE ULTRA II

This lightweight, hand-carry fogger is designed to treat critical, high-touch surfaces, large indoor areas and outdoor surfaces. Its chemical-resistant precision nozzles and low-profile, sturdy tank make the Hurricane Ultra II both functional and incredibly reliable. It's an ideal equipment choice to quickly disinfect kitchens, bathrooms and bedrooms.

### SPOTSprayR

Thanks to its compact size, heavy-duty construction and adjustable-spray tip, the SpotSprayR is the perfect tool to quickly disinfect hard-to-reach spaces and surfaces. Ideal for jobs with low-volume requirements, this sprayer is perfect for disinfecting bathroom counters, desk or nightstand drawers, as well as high-touch surfaces like doorknobs and handrails.

### FLEX-A-LITE 2600

The Flex-A-Lite 2600 is the standard in heavy-duty point-and-spray foggers. Its flexible hose directs spray to precise target areas, making disinfection of nightstands, desks, coffee tables, doorknobs and light switches efficient and easy. The ability to avoid spraying personal items makes it an ideal choice for in-occupancy guest room disinfection. No need to fill the tank to capacity, a partial fill makes it easier to carry while still delivering big-time coverage.
