

SYNERGETIC®

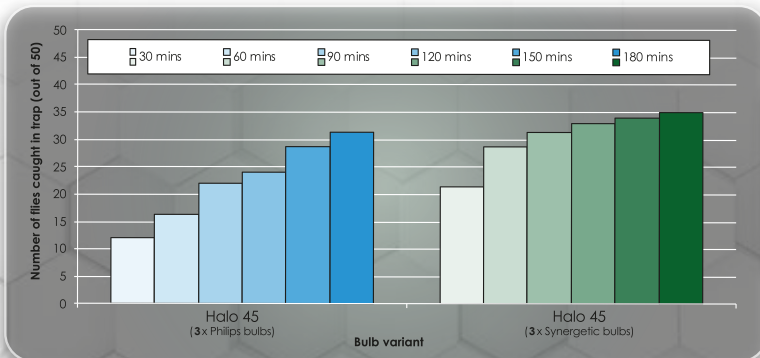

Bringing leading flying insect control to the North American market, Synergetic offers innovative, effective product solutions backed by expert technical support.

halo®

- Synergetic dual wavelength bulbs attract a wider **variety of insects***
- Quick tool free access and side access to glueboard for **quick and easy servicing**
- **Aluminum removable tray** catches debris and reflects UV light to maximise efficacy
- Closable light apertures for **maximum light output** or prevention of dust ingress
- **Slimline compact 15w** model for space restricted installations
- Glupac® glueboards with UV stabiliser and **large useful glue area**
- **45W IP45 Aqua** model for hose down and sensitive areas
- **Bulbs:** 1/2/3 x TGX15-18 | **Glueboard:** 1 x GB015 (HL15), GB012 (HL30/45), GB013 (HL45IP)
- Suggested area coverage: 430 ft² (HL15), 860 ft² (HL30), 1300 ft² (HL45/HL45IP)

*Includes greenhouse whiteflies, silverleaf whiteflies, leafhoppers, thrips, Indian meal moths, Mediterranean flour moths, tropical warehouse moths, warehouse moths plus many more!

Independent test results have shown that Synergetic bulbs attract 77% more fruit flies in 30 minutes than blue bulbs!

LED TECHNOLOGY

infiniti®

For a **low energy consumption** alternative, **Infiniti** delivers game changing unique flylight technology to the professional flying insect control market. Infiniti differentiates itself from other glueboard flylights by utilizing a **unique patented* glueboard** and **patented* UV source** to deliver superb efficacy. Fly catch trials have shown that **Infiniti offers comparable catch results to a traditional 45W UV flylight** which uses fluorescent bulbs whilst offering 65% savings in energy running costs!

*patents pending
